MEMORANDUM FOR:

FROM: Director of Central Intelligence

1. I talked to  about going up on the 9th of June. He said no, he will let me have a list of dates when his top people will be available. He'd bring some of them in from Europe for the type of meetings in which he would like me to participate.

2.  and I agreed we'd try to get together for a discussion or a luncheon sometime when he is in Washington in the near future. If he calls, I'd like very much to work it out.

3.  also said the same thing and I want very much to meet with him for an hour.

4. I had been thinking tentatively of not going to the next Business Council meeting. I enjoyed this one so much and got enough work done that I'd rather like to plan on it. Let's see if we can work the Far East trip in before that date.
